Colour - applied correctly - has a profound positive effect on your wellbeing. It strongly influences how we interact with each other and our surroundings. So what can you consider for your home and conservatory? Consider this:-

Black
Powerful, sophisticated, substantial, uncompromising, reveals hidden potential

White
The colour of purity, well balanced, optimistic, and generous,

Cream
Stimulates the intellectual side of the brain and brings out feelings of happiness.

Greens
Not surprisingly green has a strong affinity with nature, offers harmony and balance and is mentally and physically relaxing.

Greys
Independent, individualistic and subtle, grey shields us from outside influence.

Browns
The colour of Mother Earth, brown brings stability and alleviates insecurity. Nurturing and supportive

Conservatory colour - Sage Green

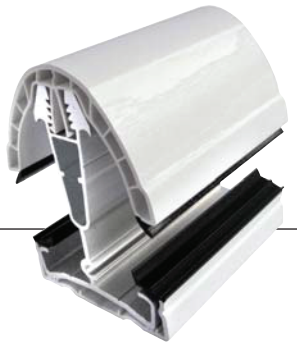

Orangery colour - Cream

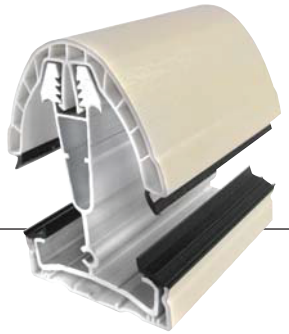

These conservatories feature major parts that are actually foil laminated, with only a minority of parts actually painted or extruded in base colours.

The foil laminated products used on major items in the roof and on the PVC side frames, have a real woodgrain texture to add a further dose of character. The products can be coloured or woodgrain foiled to one side or both sides with the possibility to mix colours between the outside and the inside.

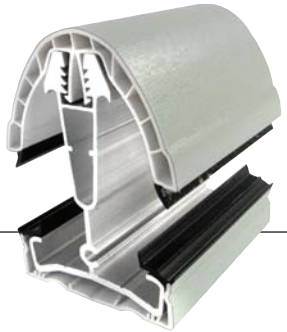

Ask to see a copy of our coloured swatches or sample profiles before you order. If you can't see the colour you want - ask about our custom painting options.

Irish Oak

A coloured conservatory consists of foiled and painted parts along with base colour extrusions. Every effort is made to ensure gloss levels are within reasonable tolerance. RAL and BS colour references are made in good faith. The colours above are reproduced as acurately as printing will allow, if in doubt always request an actual physical sample/foil swatch. White gutter on white foiled roofs and black gutter is standard on all colour/finishes except Rosewood and Light Oak, where base extrusion colours are used.
